

Receiving the Spread Your Wings Scholarship is nothing short of amazing. Although I'm not a first-generation college student I am the first traditional college student who is also going away and literally getting a chance to spread my wings. This scholarship allows me to pursue my biggest dream of attending the Illustrious Spelman College with less of a financial burden.

I have wanted to attend Spelman since the 9th grade and to be supported in my dream by the William O. Lockridge Community Foundation means more to me than I could ever express in words. In the fall I will be majoring in Political Science and Psychology in pursuit of going to Law School and being a Criminal Defense Attorney. I hope that one day I could repay the William Lockridge Foundation and support them like they have supported me.

Peace McFarland
